

The Refiner's Fire Netzarim Siddur is available in TWO versions:

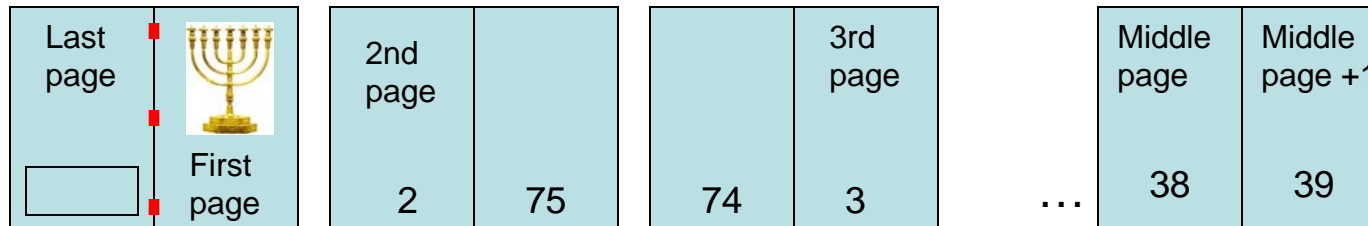

1. Regular PDF file. File name: [Messianic_Siddur-Regular.pdf](#)

This file displays and prints as continuous pages, one after the other:

2. Booklet PDF file. File name: [Messianic_Siddur-Booklet.pdf](#)

This file is not meant for display on a monitor and prints as a booklet:

To print the Booklet, set the printer for duplex, flip on short edge. Keep printed stack of pages together, and using a deep-reach stapler, put in 3 staples (red marks above) in the middle of the stack, then fold the entire stack to form the booklet. (The page numbers will come out consecutive in the folder booklet.) Use a weight to help make the fold.
